Products

Production Lines

Examination and Surgical Gloves

Household and Industrial Gloves

Lined Work Gloves

Knitted Dotted Work Gloves and PE Examination Gloves

Condoms

Balloon, Ball Bladder, Rebreathing Bag, and Pacifier

Side Equipments

Compounding Room

Ball Mill Machine /Bead Mill Machine /Mixing Tank /Air Compressor /Pneumatic Diaphragm Pump /High Speed Mixer

Production Line

Flocking Equipment /Cooling Equipment /Powder Equipment/ Beading Machine /Coagulant Tank / Latex Tank /Former Brush Cleaning Unit /Automatic Stripping /Drying Oven

Post Treatment and Others

Chlorination Equipment/ Sterilizer /Laboratory and Inspection Equipment / Packaging Equipment /Drying Tumbler/ Gas Reinforced Vaporizer/Boiler /Gas Storage Tank /Leakage Tester /Blower /Automatic Lubricating Mechanism /Chemical dipping machine /Heat Exchanger / Main Driving Unit

Spare Parts

Hand Mould Holder

Chain

Valve

Thermometer

Gas Burner

Chain Wheel

Positive Gear

Torque Limiter

All kinds of mould

Chemical Agents

Coagulant Release Agent

Flocking Addition Agent

PU Coating Agent

Post Treatment Surface Agent

Vulcanization Package

Others

Hand Best Equipment

Strength

- ✦ Custom-made to build new production line or improve and amend original line according to buyer's requirements, conditions, and parameter
- ✦ Modular equipments, high product yield, assemble and maintain easily, high stability. (All equipments are made in Taiwan and export)
- ✦ Professional machine installation on site
- ✦ EPC (Engineering, Procurement and Construction), completely chemical formula and technique transfer
- ✦ Good quality and high stability, easy to maintain and repair for the machine
- ✦ Machine warranty
- ✦ Provide production consult and after-sales service
